

3/14/2017

Public Health may cover testing for travelers returning from designated Zika areas who have symptoms and also those without symptoms. However, male and female travelers who are considering having children in the near future, or who are already pregnant, should postpone travel to Zika areas.

Please contact one of our staff members if you have questions regarding Zika testing at public health expense. Please call 402-462-6211 or toll free at 1-877-238-7595 for more information.
